# Talk Handsfree

Our clever design gives you great sound reproduction without having to hold the phone to your ear - so you can talk completely handsfree. A true plug & play device with a user-friendly menu, a great chat has never been easier.

### Nice and simple

- Freestanding handset with a speaker for easy handsfree calls
- Textured back cover for non-slip grip
- Menu in multiple local languages
- Easy to read 4.1cm (1.6") graphical display with backlight
- Up to 16 hours talk time on a single charge
- Programmable hot keys for quick dial
- Caller ID – so you always know who is calling\*

### Crystal clear sound

- Parametric Equalizer delivers pure and clear sound
- Optimized antenna layout for great reception in any room
- Advanced sound testing & tuning for superb voice quality

### Eco-conscious product

- Low radiation and power consumption

# PHILIPS

# Highlights

## Advanced sound testing

We test the sound quality of our DECT phones the same way as high-end headphone manufacturers do. Using an advanced ear simulator, we can accurately re-create the way people actually hear. This helps our acoustic engineers to measure and fine-tune things like frequency response, distortion and overall hearing perception, to create perfect voice reproduction for both handset and handsfree modes.

## Optimized antenna layout

Our optimized antenna layout ensures strong and stable reception – even in areas of the house where cordless transmission is difficult. Now you can take a call wherever you are in the house, and enjoy a long, uninterrupted conversation even as you walk around.

## Parametric Equalizer

Our telephones use parametric equalization in the digital sound processing to fine-tune the sound response back to the intended linear

frequency response curve, delivering sound that is pure and clear, for each conversation.

## 4.1cm (1.6") graphical display

Easy to read 4.1 cm (1.6") graphical display with backlight

## Handset speakerphone

Handsfree mode uses a built-in loud speaker to amplify the voice of the caller, allowing you to speak and listen during a call without holding the phone to your ear. This is especially useful if you want to share the call with others or simply multitask.

## Menu in local languages

Enjoy easy set-up, navigation and control with intuitive menu available in local languages.

## Programmable hot keys

Now calling the people you care about most is easier than ever. With simple one-touch dialing, you will never have to search for their number again. You can program up to 2 keys for instant calling.

## Non-slip grip

The rear of the handset is treated with a special texture for added comfort and better grip.

## Up to 16 hours talk time

Up to 16 hours talk time on a single charge

## Caller ID\*

Sometimes it is good to know who is calling before you answer. And our Caller ID lets you keep track of who is on the other end of the line.

## Eco-conscious product

Philips phones are energy efficient and designed to be respectful to the environment.

# Specifications

## Picture/Display

- Display size: 4.1cm / 1.6"
- Display type: 1-line dot matrix + 2 line icons
- Backlight: Yes
- Backlight color: Amber

## Memory Capacity

- Phonebook: 50 names and numbers
- Redial List Capacity: 10 last numbers
- Call log entries: 20 entries
- Phonebook store in the base

## Sound

- Volume control on handset
- Ringtones on handset: 10 polyphonic

## Convenience

- Speakerphone - talk handsfree
- Menu structure in the handset: List Menu
- Signal strength indicator: 3- bar indicator
- Battery level indicator: 3- bar battery icon
- Date / Time display
