Please have your model and serial number of your TV before making this call. You can find your TV's model and serial number located on a sticker on the front of this User Manual or on the back side of the TV.

ENERGY STAR

As an ENERGY STAR® Partner, Magnavox has determined this product meets the ENERGY STAR® guidelines for energy efficiency. ENERGY STAR® is a U.S. registered mark. Using products with ENERGY STAR® label can save energy. Saving energy reduces air pollution and lowers utility bills.

DOLBY Manufactured under license from Dolby Laboratories.

D I G I T A L 'Dolby' and the double-D symbol are trademarks of Dolby Laboratories.

Magnavox has paid a lot of attention to producing an environmentally friendly product. Your new TV contains several materials that can be recycled for new uses. At the end of its life, specialized companies can dismantle and recycle this set. This will minimize the amount of materials being disposed of. Please be sure to dispose of this set in accordance with all state and local regulations. Like all LCD products, this set contains a lamp with Mercury, please dispose of according to all Local, State and Federal laws.

Pixel characteristics

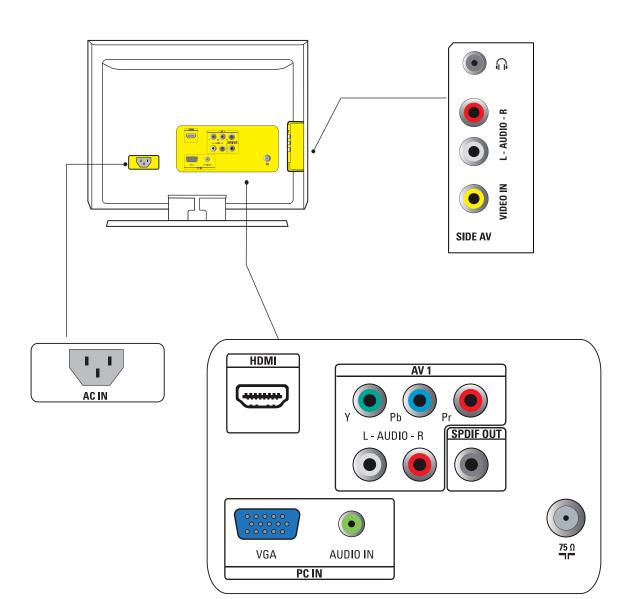

Your TV display is made with high-precision technology with a high number of color pixels. Although it has effective pixels of 99,999% or more, black dots or bright points of light (red, green or blue) may appear constantly on the screen. This is a structural property of the display (within common industry standards) and is not a malfunction.

Note to the CATV system installer: This reminder is provided to call the CATV system installer's attention to Article 820-40 of the NEC that provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building, as close to the point of cable entry as practical.

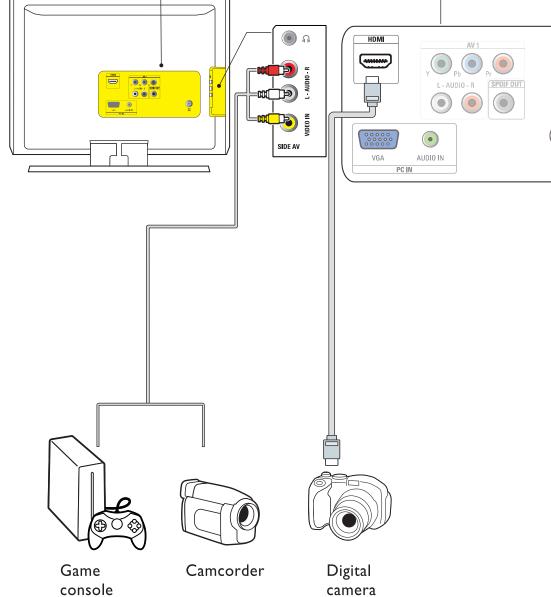

Precaution

- **ADDITIONAL SAFETY PRECAUTIONS**
- ENSURE that LCD TV stand is tightened properly to the set on the right way of tightening of the screw of the stand to the set. Improper tightening of screw may render the set unsafe.
- If LCD TV is installed on the wall, installation should be carried out by qualified servicemen. Improper or incorrect installation may render the set unsafe.
- Disconnect main plug when:
- cleaning the TV screen, never use abrasive cleaning agents. — there is a lightning storm.
- the set is left unattended for a prolonged period of time.
- Do not shift or move the LCD TV around when it is powered on.
- Do not touch, push or rub the surface of the LCD screen with any sharp or
- When the surface of the LCD screen becomes dusty, wipe it gently with an absorbent cotton cloth or other soft material like chamois. DO NOT USE
- acetone, toluene or alcohol to clean the surface of the screen.
- These chemicals will cause damage to the surface. • Wipe off water or saliva as soon as possible. These liquids can cause
- deformation and color fading of the LCD screen when left exposed for some time.
- Be careful of condensation when temperature changes occur.
- Condensation can cause damage to the LCD screen and electrically parts. After condensation fades, spots or blemishes will be present on the LCD screen.
- POSITIONING THE LCD TELEVISION • Place the LCD TV on a solid, sturdy base or stand. Be sure the stand is strong enough to
- handle the weight of the LCD TV. • Try to leave at least 6" of space around each side of the LCD TV cabinet to allow for
- proper ventilation. • If the TV is mounted on a swivel base or swivel arm, ensure no strain is placed on the
- AC power cord when the TV is swivelled. Strain on the power cord can loosen connections. This may cause arcing and result in fire.
- Do not place the LCD TV where it can be exposed to rain or excessive moisture.
- This product contains mercury (Hg) and must be recycled or disposed of according to local, state or federal laws. As this material maybe regulated due to environmental considerations, please contact you local authorities or the Electronic Industries Alliance: www.eiae.org.

Like all LCD products, this set contains a lamp with Mercury. Please dispose of according to all Local, State and Federal Laws. For the disposal or recycling information, contact: www.mygreenelectronics.com or www.eiae.org

Trouble shooting

Symptoms	Possible cause	What should you do
No power or indicator light.	The TV is not connected to the power.	1. Press POWER at the front of the TV, or press Φ on the remote control.
		Ensure the AC power cord is connected tightly to the TV power connector and to the power socket outlet.
		3. Remove the AC power cord from the power socket outlet, wait 60 seconds and reconnect the AC power cord.
		4. Connect the TV to a different power socket outlet.
Error message on the screen with HDMI connection.	HDCP authentication fail.	1. Ensure that your HDMI cable is certified.
		2. Press SOURCE on the remote control to switch to another source and then switch back to the HDMI source.
		3. Reset the accessory device and the TV. Turn on the TV Select the HDMI channel Turn on the accessory device
		4. While the TV and the accessory device are powered on, unplug either end of the HDMI cable and then reinsert the cable.
No sound is detected from the PC.	Audio cable is not connected.	1. Connect an audio cable to the PC AUDIO IN port on the TV.
		2. Press SOURCE on the remote control, and select the PC source.
TV does not respond to the remote control.	Batteries are installed incorrectly, or low battery power.	Ensure the indicator light on the TV blinks when the remote control buttons are pressed.
		2. Ensure that you are using the remote control supplied with the TV.
		3. Ensure that the batteries of the remote control are inserted according to the illustration on the remote control and that the batteries do not need to be replaced.
		4. Remove the AC power cord from the power socket outlet, wait 60 seconds and reconnect the AC power cord.
The picture is distorted. It is stretched out, has short, fat, black bars on the side or top.	Broadcast video format.	Press the FORMAT button on the remote control to select the best picture format.
		2. For some accessory devices, the picture format has to be set in the accessory device.
The picture is mostly red and green, or the picture is missing red when the TV is connected to an accessory device via component cables.	Insecure/incorrect connection.	Ensure all the connections are made according to the color code.
		2. Push the component cables all the way into the YPbPr sockets on the TV.
No sound on the TV loudspeaker:	Volume level is set to zero.	1. Increase the volume.
	Sound is muted.	2. Press MUTE on the remote control.
	Headphones are connected.	3. Ensure the headphones are not plugged into the TV.
	Audio cable is not connected.	4. For AV connection, ensure that the Audio L/R cable is connected as described in Connect devices on page 26. If you are using a component cable, ensure that you have not crossed the red audio cable with the red video cable.
	Accessory device audio output setting is incorrect.	5. For HDMI connections, some accessory devices have an HDMI audio output setting that must be turned on for HDMI to HDMI connections.
Bad picture quality with a coaxial connection.	Standard definition channels are not as clear as high definition channels.	Connect the devices via component or HDMI cables.
No picture or sound.	Incorrect channel	1. Ensure you have selected the correct channel.
	Incomplete channel installation.	1. If the TV receives channels via an AV connection, set the TV to the correct source input.
		If the TV is connected directly to the wall via a coaxial connection, perform the auto-installation again.
