- USB and SD card slots for photos and music playback
- AUX-in for easy connection to almost any electronic device
- Compatible with any media
- I work with MAC and PC
- Convenient speaker-front volume and power control

Great sound quality

- 60W output power

Features

60W output power

60W output – wow! We gamers all want higher power because for gaming speakers the bigger the output, the better the bass and overall sound quality. So enjoy your next game with this powerful, big 60W output which gives you all the explosive bass you want.

Stereo Bluetooth device

PHILIPS

USB and SD card slots

Thanks to the complete file transferability, you can easily enjoy the convenience and fun of accessing more music and photos via the USB and SD card slots.

AUX-in for easy connection

Compatible with any media

Extended tube design

All gamers want their speakers to have as much bass as possible, and these speakers are specially designed to deliver the bass you want. The long tube

design of this satellite speaker gives better quality sound with extended bass. This creates more volume to generate more bass and bring you more enjoyment from your games.

I work with MAC and PC

Rich bass

This Philips PC speaker provides good sound quality with a rich bass experience from a loudspeaker box system.
