BTD7170

Relax with great music and movie

Obsessed with sound

Great sound & movie experience with this Philips BTD7170 DVD micro system. HiFi dome tweeters bring you detailed and natural sound. Even you can stream your music in high quality via Bluetooth with aptX and NFC offer one touch easy pairing

Enrich your sound experience

- 150W RMS maximum output power
- Treble and Bass Control for easy high and low tone settings
- Bass Reflex Speaker System delivers a powerful, deeper bass
- Digital Sound Control for optimized music style settings

Easy to use

- One-Touch with NFC-enabled smartphones for Bluetooth pairing
- FM digital tuning to preset up to 20 stations
- Motorized CD loader for convenience access

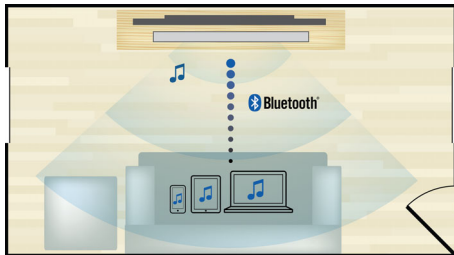

Enjoy your favorite movies and music

- Bluetooth wireless music streaming from your music devices
- HDMI 1080p upscales to high definition for sharper pictures
- HDMI ARC to access all the sound from your TV
- Play DVD, (S)VCD, MP3-CD, CD(RW) and Picture CD
- Karaoke for endless singing entertainment at home

PHILIPS

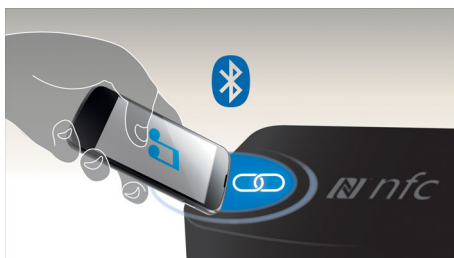

Highlights

Bluetooth wireless streaming

Bluetooth wireless music streaming from your music devices

NFC technology

Pair Bluetooth devices easily with one-touch NFC (Near Field Communications) technology. Just tap the NFC enabled smartphone or tablet on the NFC area of a speaker to turn the speaker on, start Bluetooth pairing, and begin streaming music.

HDMI 1080p

HDMI 1080p upscaling delivers images that are crystal clear. Movies in standard definition can now be enjoyed in true high definition resolution - ensuring more details and more true-to-life pictures. Progressive Scan (represented by "p" in "1080p") eliminates the line structure prevalent on TV screens, again ensuring relentlessly sharp images. To top it off, HDMI makes a direct digital connection that can carry uncompressed digital HD video as well as digital multichannel audio, without conversions to analog - delivering perfect picture and sound quality, completely free from noise.

HDMI ARC

HDMI ARC to access all the sound from your TV

Play DVD, VCD, MP3-CD, CD(RW) & Picture

The Philips player is compatible with most DVD and CD discs available in the market. DVD, (S)VCD, MP3-CD, CD(RW) and Picture CD - all of them can play on the player. SVCD stands for "Super VideoCD". The quality of a SVCD is much better than a VCD, especially much more sharpen picture than a VCD because of the higher resolution. CD(RW) is a shorthand term for a CD drive that can accept the common rewritable CD format.

Treble and Bass Control

Treble and bass are equalizer features that control the high and low frequency sound levels of your audio respectively. Treble specifically regulates the amplification of the high tones in the music while bass controls the amplification level of the low tones. Using the up and down keys, the listener can conveniently place more or less emphasis on the low and high tones, or leave treble and bass flat to playback music according to its original recorded setting. Treble and Bass Control lets you listen to your music the way you like it.

Specifications

Sound

- Sound System: Dolby Digital
- Maximum output power (RMS): 150W
- Sound Enhancement: Treble and Bass Control

Loudspeakers

- Speaker drivers: 5.25" woofer
