PHILIPS

Car accessory
Bluetooth Dual pair, Easy mount

CAB22/00

Highlights

Bluetooth-enabled

Bluetooth is a short range wireless communication technology that is both robust and energy-efficient. The technology allows easy wireless connection to other Bluetooth devices, so you can play your favorite music from any smartphones, tablets or even laptops including iPod or iPhone on Bluetooth-enabled speaker easily.

Built-in microphone & speakers

Built-in microphone and speakers for hands-free mobile calls

By-pack with car charger

By-pack with car charger

Compact design

Compact design to bring anywhere

High quality built-in speakers

High quality built-in speakers for rich and clear sound

Built-in rechargeable battery

Play music out loud - anytime, anywhere. The built-in rechargeable battery lets you enjoy your personal music without the fuss of entangled power cords and the inconvenient search for an electrical outlet. Enjoy great music with the freedom of portability now.

Auto on/off

Once the speakerphone is paired with your phone, it will connect automatically when it is in range. So, it is ready for you every time when you come back to your car.

Dual Pair

Connect to two mobile devices at the same time. Pick up calls and listen to GPS directions, streaming music or podcasts from either one. Fully hands-free while driving.

Easy mount

Philips In-car Bluetooth speakerphone provides a strong clip for mounting on the sun-visor and it is shaped to let you install smoothly and quickly, normally within a few seconds. It is easy for removal and storage when you do not want it to be seen by outsiders when you leave car.

Rotary knob

Philips in-car Bluetooth speakerphone comes with a protruding rotary knob for easy positioning of control panel to enable you answer call and adjust volume especially in low light condition. Control becomes much more easy than similar devices using buttons only and you can always keep your eyes on the road.

Streaming audio

Philips In-car Bluetooth speakerphone is not limited to hands-free calls. With Bluetooth 4.0 and A2DP profile, it is also a perfect companion for steaming audio including music, media and GPS directions, giving you rich information and entertainment before reaching destination.
