Easy, reliable and future proof system

- Connects to your wearables
- Compatible with Apple HomeKit technology and Works With Nest
- Connect up to 50 Philips Hue lights

PHILIPS

Highlights

Create your ambiance

Set the right ambiance for any moment with a range of beautiful, natural white light. Use the app to set any shade of white light, from cool energizing daylight to relaxing warm white light. Take control and set the ambiance. Not too bright. Not too dark. Just right.

Light for your well-being

Light influences our mood, behavior, alertness and routines. Through the app, you can set the light that is optimal for your moment. Philips Hue helps you to energize, concentrate, read and relax. Customize your daily routines into moments you can enjoy. Feel different. Feel better.

Wake-up naturally

Ease your sleeping routine and wake up gently for a fresh start of each day. Philips Hue will help get you out of bed in a nice way. The gradually increasing light intensity gives you the feeling you are waking up naturally with sunlight - rather than the rude awakening of an alarm ringing.

Smart control

Connect your Philips Hue lights with the Bridge and start discovering the endless possibilities. Control your lights from your smartphone or tablet via the Philips Hue app, or add switches to your system to activate your lights. Set timers, notifications, alarms, and more for the full Philips Hue experience.

Hue dimmer switch included

Control your Philips Hue lights without using your smartphone or tablet. With the included wireless switch, you can turn your lights on/off, switch between 4 preset light settings, and dim to the right brightness. Via the Philips Hue app you can configure the switch and add your favorite Philips Hue light scenes. Placement is quick, simple and hassle-free. Just attach the switch anywhere you want, using screws or the adhesive tape on the backplate.

Connects to your wearables

Connect Philips Hue to your wearables and unlock features that help your daily life. Philips Hue already connects with Apple Watch, Android wear, Pebble, and various popular fitness trackers through IFTTT such as Fitbit and Jawbone. This allows you to turn on the lights automatically when you start to wake up, or when you've reached your sleep goal for the night.

Specifications

The bulb

- Fitting: E27
- Form factor: A19
- Lifetime: 25000 hour(s)
- Color temperature: 2200K-6500K
- Wattage: 9.5 W
- Input voltage: 220V-240V
- Light output: From warm to cold white color
- Lumen output: 806 lm
- Software upgradable
- Start up: Instant 100% light output
- Height: 110 mm
- Height: 4.3 inch
- Max. operation power: 9.5 W
- Max. standby power: 0.1 W

The bridge

- Height: 3.5 X 3.5 inch
- Height: 88 X 88 mm
- Frequency band: 2400~2483.5 MHz
